

## ✦ BE THE CHANGE ✦

### How will you volunteer?

**One of the best ways to begin your search is through your state peak-body for volunteering!**

Each hosts an online database that details available volunteer roles.

You can volunteer with a nonprofit in your area of study. You can get involved in anything from the arts, conservation, sports, welfare or emergency services, to helping people experiencing homelessness, children, animals, or refugees.

You can also search through your university or school. Most education providers run service learning programs and career counselling services which can assist you in finding an opportunity right for you.

**Participate in volunteering events that your university or school facilitates!**

There's nothing stopping you from initiating an event, such as a fundraiser, on behalf of a nonprofit. Be creative and carry into practice! You can make a difference! Spot a need to be satisfied? Start your own group! There are a multitude of resources online to help you get your project off the ground.

**Every journey starts with a single step!**

### Through volunteering you can:

- develop new skills
- build networks
- improve your community
- enhance your employability
- meet new people
- increase your confidence
- transform yourself
- be happier and healthier
- support a cause you care about!

**Join students all over the nation this August for National Student Volunteer Week. We are inviting students to challenge themselves, to be the change they want to see and to celebrate each other.**

### Where to find us

Get involved in your community!
